

# BIOLOGICAL SCIENCES SEMINAR

November 1, 2018

3:30 PM SCEN 604

(Refreshments 3:00 PM SCEN502)

## Unraveling the epidemiology of staphylococcal mastitis in dairy cattle and goats using molecular tools.

Presented by:

Dr. John R. Middleton, DVM, PhD, DACVIM  
Large Animal Internal Medicine, Professor, Food Animal  
Assistant Director, Agricultural Experiment Station, College of Veterinary Medicine  
Dept. of Veterinary Medicine and Surgery  
College of Veterinary Medicine, University of Missouri

A graduate of Washington State University (BS, DVM, PhD), where he completed specialty training, John Middleton joined the MU faculty in 2001. Research interests: bovine and caprine mastitis; molecular epidemiology of bacterial pathogens. Clinical interests: internal medicine; general food animal medicine and surgery.
